(208) 859-9603 | kcbinegar@gmail.com | [Portfolio](#) | [LinkedIn](#)

Technical writer combining research expertise with Git-based docs-as-code workflows to create clear, user and developer documentation with Markdown, MDX, and static site generators.

RELEVANT EXPERIENCE

Technical Writing Consultant – Boise State University
Boise, ID

August 2024 – September 2025

- Provided expert consultations for researchers and SMEs on technical and professional writing, ensuring clarity, consistency, and adherence to style guides and formatting standards.
- Increased clients' business-writing proficiency by 32% and contributed to a 244-consultation increase in annual client engagement.
- Translated complex or discipline-specific concepts into accessible language for diverse audiences.
- Developed and led six annual workshops on documentation practices, editing workflows, and writing principles aligned with end-user needs and overall content usability standards.

Researcher – University of Amsterdam
Amsterdam, The Netherlands

August 2022 – August 2023

- Researched how modes of information design affect comprehension and engagement among neurologically diverse audiences, emphasizing accessibility within user-focused documentation.
- Designed a tracking system in Drive and Zotero for 22 process documents and 55 sources, applying version control/metadata organization similar to professional documentation workflows.
- Applied project management skills to meet writing deadlines and maintain documentation accuracy, integrating qualitative and quantitative research findings into cohesive deliverables.

Lead Writing & Administrative Consultant – Boise State University
Boise, ID

August 2019 – August 2022

- Coordinated internal communication across 30+ interns, consultants, and executive leaders to ensure consistent documentation and procedural alignment.
- Delivered hundreds of one-on-one consultations on technical and professional communication, emphasizing structured writing, clarity, and user-centered messaging.
- Supported grant research and data analysis for the College of Business and Economics, using Excel to organize, track, and interpret project data.
- Led quarterly professional development sessions that refined staff skills in editing, version control, and adherence to organizational writing standards.
